Census and Vital Statistics Branch
Chief: E. S. Macphail

RADIOS IN CANADA, 1931

This Bulletin gives a preliminary count of the number of radio sets in Canada by provinces, counties or census divisions and for urban centres having a population of 5,000 and over as of June 1st, 1931. The final tables will show the number of families having radios and also the average number of families per province having radio sets.

In Table I the figures for radio sets are shown for Canada and for each province under two main heads - rural and urban. Owners of radios among the rural population are divided into two classes viz., those "on farms" and those "not on farms". Radio sets reported for the urban population are shown by groups of localities classified by size under four categories.

The following statement distributes radio sets on farms by provinces on June 1st, 1931:-

Province	Farms	Radios "on farms"		Province	Farms	Radios "on farms"	
		Number	per 100 farms			Number	per 100 farms
Canada	728,623	116,354	16	Ontario	192,174	40,050	21
P.E. Island	12,865	1,374	11	Manitoba	54,199	9,752	18
Nova Scotia	39,444	4,530	11	Saskatchewan	136,472	27,478	20
New Brunswick	34,025	2,574	8	Alberta	97,408	17,094	18
Quebec	135,957	7,494	6	British Columbia	26,079	6,008	23

Table II distributes the number of radio sets in Canada by counties or census divisions while Table III shows the number of radio sets in urban localities of 5,000 and over.

-2-

TABLE I - Radio Sets in Rural and Urban Communities by Class of Locality
Together with the Average Number per 1,000 Population, 1931

Rural and Urban Localities by Classes	Population	Number of radios	Number of radios per 1,000 population
CANADA	10,367,063 ^{1/}	770,436	74.32
